US Midterms 2026
the written explainer

3 November 2026 ko America mein ek bada election hua — President ka nahi, Congress ka. Isse bolte hain midterm election. Result: Democrats ne House aur Senate dono jeet liye. Trump President hain, par ab unki power ka aadha hissa unke haath se nikal gaya. Yahan poora system, 2 minute mein.

1. SYSTEM: POWER TEEN HISSON MEIN

- **President (executive):** executive orders, foreign policy, army ka command, tariffs, aur kisi bhi bill pe **veto**.
- **Congress (law-maker):** do chambers — **House of Representatives (435 seats)** aur **Senate (100 seats)**. Har naya law aur har budget (paisa) Congress se pass hota hai. Congress hi President pe nazar rakhta hai: hearings, investigations, impeachment.
- **Senate ka extra power:** President ke bade appointments — ministers, judges, ambassadors — Senate approve karta hai.
- (Supreme Court teesra hissa hai; is explainer mein nahi.)

2. MIDTERM KYA HAI

- President 4 saal ke liye chunte hain. Theek beech mein, 2 saal baad, Congress ka election hota hai — isliye "mid-term".
- Har midterm mein House ki **saari 435** seats aur Senate ki **lagbhag ek-tihai** seats dobara chuni jaati hain.
- Yeh President ka report card hai: history mein zyada-tar President ki party midterm haarti hai (2010 Obama −63 House seats, 2018 Trump −40, 2022 Biden −9).

3. KYA HUA (3 NOV 2026)

- Pichhle 2 saal Trump ke paas **trifecta** tha: White House + House + Senate, teeno Republican → har bill, budget, appointment aaram se pass.
- **House:** Democrats jeete — unki sabse badi majority in almost 20 years. Speaker banenge **Hakeem Jeffries**.
- **Senate:** 100 mein se **54** seats Democrats ki. Saat seats flip hui:
  - Kansas — Adam Hamilton (beat Roger Marshall)
  - Iowa — Josh Turek (beat Ashley Hinson)
  - Texas — James Talarico (beat Ken Paxton)
  - Ohio — Sherrod Brown (beat Jon Husted)
  - Maine — Troy Jackson (beat Susan Collins)
  - North Carolina — Roy Cooper (beat Michael Whatley)
  - South Carolina — Annie Andrews
  - Michigan Democrats ne hold kiya: **Abdul El-Sayed** (beat Mike Rogers).
- Ab America mein **divided government** hai: President Republican, Congress Democrat.

4. AB KYA BADLA

1. **Bills aur budget:** koi bhi naya law ya budget bina Democrat votes ke pass nahi hoga. Budget atka toh government shutdown tak ho sakta hai.
2. **Appointments:** naye ministers aur judges ko Democrat Senate approve karega.
3. **Oversight:** committees Democrats chalayenge — hearings, subpoena, investigations. Har faisle pe sawaal.
4. **Veto:** Trump veto kar sakte hain. Veto todne ke liye dono chambers mein two-thirds chahiye — jo kisi ke paas nahi. Result: **deadlock**.

5. KYA NAHI BADLA

- Trump **20 January 2029** tak President hain. Executive orders, foreign policy, tariffs — yeh bina Congress ke chalte hain.
- **Impeachment:** House simple majority se kar sakta hai, par hataane ke liye Senate mein **67** votes chahiye. Democrats ke paas 54 → nahi hoga.

6. INDIA KE LIYE

- **H-1B ki $100,000 fee** aur **India pe tariffs** — dono Trump ke executive decisions hain, Congress ke law nahi. Isliye turant reverse nahi honge.
- Par ab Congress hearings bula sakta hai, funding rok sakta hai, naya bill la sakta hai (jo Trump veto karenge). Matlab **pressure badhega, speed nahi**.
- Markets ko yeh deadlock pasand aaya: US futures upar gaye — ab koi bada surprise law aasan nahi.

7. KAB SE

- Naya Congress **3 January 2027** se baithega. Tab tak purana hi chalega.
